The image shows a screenshot of the Anaconda Prompt terminal window. The title bar reads "Anaconda Prompt". The command prompt shows the path "(C:\Users\inq-windows\Anaconda3) C:\Users\inq-windows>" followed by the command "conda install -c menpo opencv". The terminal background is black, and the text is white.

1. 開啟"Anaconda Prompt"

2. 輸入指令：

conda update conda

conda create -n py27_cv24 python=2.7 anaconda

activate py27_cv24

conda install -c menpo opencv

conda install -c conda-forge pmw

conda install -c anaconda pyserial
